

Climbing Summary – Snowy Pass, 2003:

Mountain	Parties/Participants
Wales - 3140m / 10,142 NW Snow Slopes	5 / 26
King Edward – 3136m / 10,286' S Slopes	6 / 26
NW Toronto – 2848m / 9200' N. Ridge	2 / 26
Toronto – 2940m / 9496' S Ridge	16 / 123
Chaba Pk – 3210m / 10,595' S Ramp	9 / 54
S Aquaduct – 3243m / 10,450' N Ridge	15 / 90
Mt Chaba – 3176m / 10,250' S Face	14 / 117
N / S Watershed – 3201m / 10,430' W Face	20 / 168
N / C Aquaduct – 3188m / 10,300' E Face	16 / 129
Omega – 3157m / 10,200' SW Ridge	4 / 18
Triad - 3109m / 10,044' N Glacier	7 / 45

note – the weather was exceptional, for the 1st time in my experience with the GMC we didn't lose a single climbing day. South Aquaduct proved to be the surprise plum of the group, it was the crowd favorite. Omega had more technical difficulties than we had anticipated and was not climbed as often as anticipated. Drop me a line if you would like anymore specific about the Snowy Pass GMC or route information

Thanks a lot,
Brad Harrison
